

COMPANY PROFILE

The spices of life... Flavours, Seasonings and Colouring... enhance the palatability or the aroma of nearly all the Food, Beverage, Snack and Household products we find in today's marketplace. The most successful products, which tremendously appeal to consumers, are those with the outstanding tastes and aromas. It is very important that these tastes and aromas provide the characteristics of the natural Fruit, Meat, or Vegetable.

Inthaco has been a basic supplier of Food Ingredients since 1976, and we have continuously researched and developed our ability to produce superior quality products for the food industries in today's changing markets. Over the past decades, we have created our specialty of various Spray Drying food ingredients which are of Natural Botanical products.

With over 33 years of experiences in servicing the food industries, Inthaco's visions are to create unique, superior and economically competitive products through a powerful congregation of Customers, Services and Innovation. We are committed to working to provide the highest satisfaction and fulfillment. With the collaboration of the expert teams, we are determined to develop exclusive products our customers for their success in the marketplace. Our people are on top of mind for services with customers and attain true customer understanding to drive not only the reliability but toward excellency, while complying with legal, ethical and environmental requirements.

At Inthaco, we consistently support our customers with innovative solutions to improve consumers' lives and well-being. As consumers today are seeking bigger and bolder products and our development capabilities give us the ability to offer our customers a full range of product systems to satisfy any requirements.

We offer a full breadth of products that can be delivered in liquid, dry and encapsulated forms to meet our customers' final requirements. Our ranges of products can be described briefly as follows;

- Fermented powder products
- HVP powder products
- Flavour liquid and powder products
- Natural Botanical products
- Seasoning and Spices products

The food industries which our products are applicable for include Sausage, Snack food, Ice-cream, Beverages, Alcohol Beverages, Bakery, Seafood Canning, Catering, Restaurant, and all others in related industries.

Our research teams are continually developing new and unique products for today's changing markets. Please do not hesitate to contact us for more information.
